HEAD START

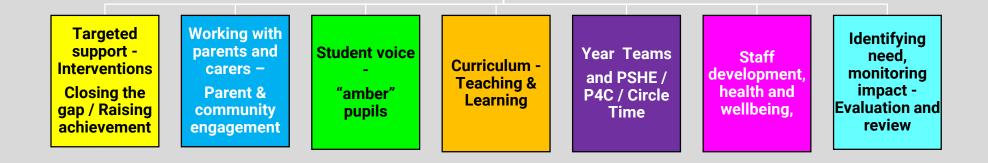

# Model for maximising the impact of a resilience & well-being strategy, supported by HeadStart

WHOLE SCHOOL ETHOS & ENVIRONMENT : ALL STAFF

Leadership and management

School Development Plan includes Resilience and Wellbeing Strategy – based on the ARA Framework and supported by HeadStart

#### SLT Whole School Approach Audit

		EWHAM		
DEVELO	PING A WHOLE SCHOOL APPROACH TO MENTAL HEALTH AND			
	WELLBEING			
AREA OF SCHOOL	EMBEDDED ACTIONS	R/A/G		
	SLT and the governing body have analysed the school's results from the			
	annual Wellbeing Measurement Framework survey and there is a whole			
	school approach to mental health and wellbeing in place.			
LEADERSHIP &	All members of SLT			
GOVERNORS	<ul> <li>understand how HeadStart is supporting the school in its approach to</li> </ul>			
	mental health and wellbeing, and			
	<ul> <li>are clear about how their respective roles also support the approach.</li> </ul>			
	<ul> <li>have identified actions to support the approach</li> </ul>			
	Staff have received training and are confident in supporting the mental			
STAFF	health and wellbeing of students and tackling stigma in relation to mental			
	health issues.			
	Students learn about mental wellbeing			
	Students are aware of what they can do to build their own resilience and			
STUDENTS	improve their own wellbeing			
UTODENTO	To support their capacity for self help, students regularly reflect on their own			
	personal development and experiences of building resilience and improving			
	their wellbeing.			
	Supported by the whole school lead for student voice, HeadStart			
	Champions:			
	<ul> <li>have completed the HeadStart pupil audit and engaged with the</li> </ul>			
STUDENT VOICE	school's WMF survey results and subsequent actions to identify up to			
	3 priorities.			
	<ul> <li>have presented their findings and proposed solutions to either SLT</li> </ul>			
	and/or governors.			
POLICIES	SLT is reviewing key policies (e.g. behaviour, rewards, anti-bullying etc.) to			
T OLIGIES	reflect the whole school approach to mental health and wellbeing.			
PROVISION	SLT has reviewed the content of the whole school PSHE curriculum to			
	reflect the whole school approach to mental health and wellbeing.			
	SLT is ensuring that			
CADLY	<ul> <li>processes are in place for staff to identify at risk students and students</li> </ul>			
EARLY IDENTIFICATION &	exhibiting early signs of mental ill health earlier,			
INTERVENTION	<ul> <li>those students are engaged in relevant interventions where appropriate</li> </ul>			
	<ul> <li>information concerning these students is communicated regularly to</li> </ul>			
	relevant staff.			
PARENT	SLT is engaging parents in supporting the mental health of students.			
ENGAGEMENT				
COMMUNITY				
Enshoundin	in supporting the mental health of students.			

### Case study example, School A's journey with HeadStart Newham

### A comprehensive map of school provision

### Mental Health named specifically in the School Improvement Plan

### **Training Programmes**

### **Raising Standards of Wellbeing Provision**

Schools identified benefits to pupils to include; **improved awareness of mental health**, **development of meaningful and representative pupil voice structures**, **individual progress made in terms of confidence**, **self-esteem and well-being** through targeted interventions.

Staff benefitted from training, CPD opportunities and school staff forums, which increased knowledge and skills to identify pupils with emerging mental health needs and ways to support needs

The school **Wellbeing Measurement Framework** (WMF: <u>https://www.corc.uk.net/resource-hub/wellbeing-measurement-framework-wmf/</u>) data demonstrates the impact of the above:

- Compared to the baseline year (2016/17), WMF cross-sectional, time trend analysis revealed two areas of improvement for HeadStart *primary* schools: decreased emotional and behavioural difficulties.
- Compared to the baseline year (2016/17), WMF cross-sectional, time trend analysis revealed two areas of improvement for HeadStart *secondary* schools: decreased behavioural difficulties and an increase in peer support.

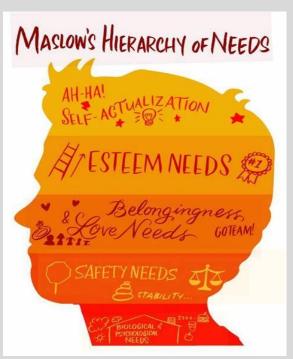

# Findings and impact on delivery

Statistical model found that taking part in BounceBack significantly predicted a reduction (~8%) in emotional difficulties.

This reduction was greater for those attending more sessions

Robust and rigorous analysis (intent to treat design, with randomised control group) means we can be confident in the results!

*If we can support a child's emotional needs, the rest can develop. Behaviour, self esteem and ability to solve problems are built up. Think Maslow's hierarchy of need....* 

ACTIVITY: Think back to when you were10 or 11 Year old who is currently in Year 6...

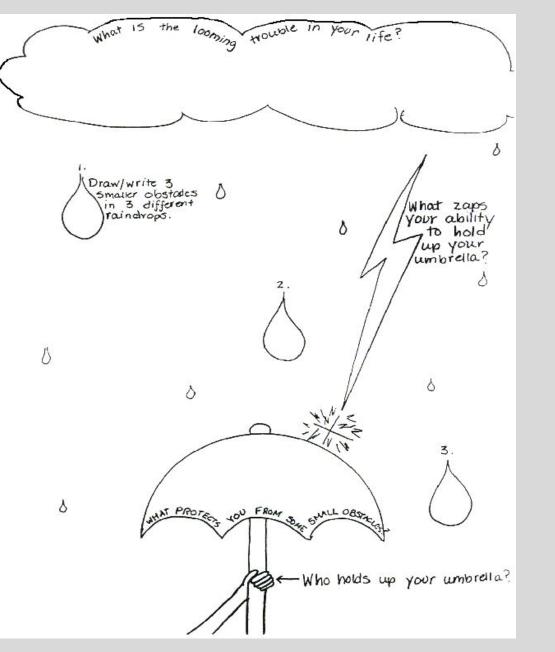

How were you thinking and feeling?

-

-

-

- What was a looming trouble or cause for worry in your life?
- What improved your wellbeing and protected you from raindrops?

NEWHAM

### What impact could this storm be having on the wellbeing of cyp?

This logic model outlines BounceBack, a HeadStart Newham targeted intervention. It shows the logical relationships between the inputs, outputs, the intended outcomes, and impacts. It is updated annually and provides a framework for evaluation.

Inputs	Outputs		Outcomes - Impacts			
	Activities	Participation	Short term	Medium term	Long term

## BounceBack: The language

### **Resilience Moves:**

ten moves that students try out and rate throughout the programme. E.g Being More Active or Noticing the good things in life

### **Resilience Skills:**

Planning for success, Learning from experience, Staying Motivated, Dealing with tricky situations and people and Being Able to Ask for help

### Plan, Move, Think, Learn:

model used throughout the intervention to encourage students to try new things and reflect on their progress.

### Take Away Time:

homework tasks/challenges that the students carry out at home, which relate to the move/skill covered that week.

#### **Buzz Diary:**

daily check in tool where the students write down what they did, who they spent time with and all the different emotions they felt.

#### **Recipe for Success:**

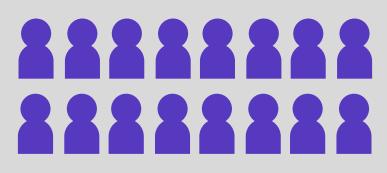

Group agreement/ground rules established by the group at the start of the intervention.

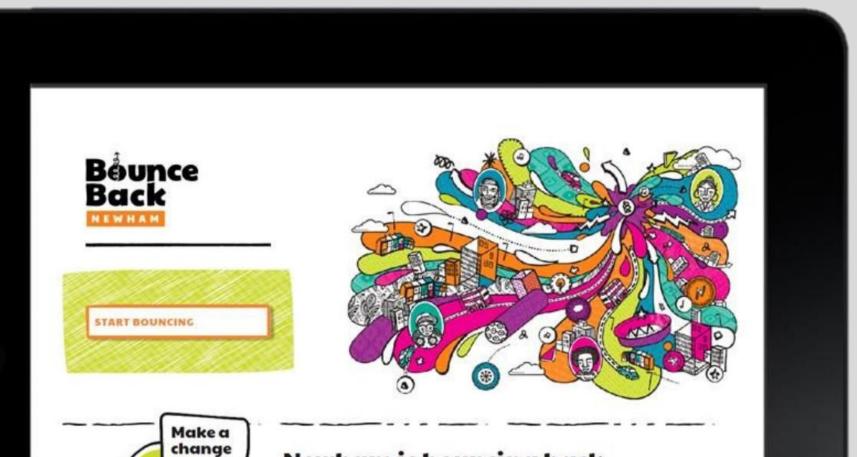

# Workforce Development

- Whole school or small group staff training on delivering the comprehensive online programme (utilizing case studies, session plans, activity sheets and the online check in tool)
- Consultation support for staff delivering (1-2 check ins during the delivery of the programme) and end of intervention review meeting
- Support and guidance to develop a suitable measurement method to assess individual progress and capture outcomes
- Support on embedding the BounceBack and Academic Resilience Approach into the whole school setting
